

Linear piston filler for dense and liquid products

OEM	UNIMAC-GHERRI
Model	PF6LT
Country of origin	Italy

Description:

Highly reliable machine, suitable for filling dense and semi-dense products such as:

- jam containing pieces
- tomato paste
- ketchup
- meat-based or vegetable-based sauces
- baby-food
- jams
- similar

Max. production: 8000 cph with 100 g jar and homogeneous product (tomato paste).

Advantages

- Memorization of parameters and recipes
- Easy cleaning and high sanitation level
- Simple use and ergonomic controls
- Flexible product change and quick format change-over adjustments

Technical data

- Jar diameter : 40 - 160 mm

-
- Jar height: 40 - 250 mm
 - Dosing capacity: 100 - 1100 ml
 - Installed electric power 5 kW
 - Air consumption: : 1 Nm³/h
